

SKYlite

PVC ROOF LANTERN

HIGH PERFORMANCE PVC ROOF LANTERN
WITH **OPTIMAL LIGHT GAIN** & HIGH
THERMAL PERFORMANCE

WHY SKYLITE?

- **High Thermal Performance** - Insulated chambered top cap provides a thermal barrier between the outside and inside.
- **Easy to Glaze & Install** - Simple and easy glazing installation. Fitters can precisely position the glass evenly due to detachable ridge top cap.
- **Optimal Light Gain** - Slimline and neat components for a modern appearance.
- **Security as Standard** - Strong secure components – Robust cappings reducing warping and twisting
